

Student study tips

Get into a routine - same time, same place for your studying, get into a good studying habit.

Keep your files and notes organised. Know where everything is so you don't waste study time searching for it.

Unplug the internet if you're using the computer for work, it'll stop you getting distracted by browsing on the internet.

Student house tips

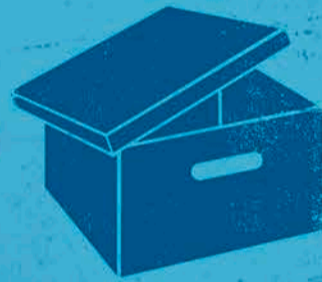

Buy earplugs. Your housemates will never keep you awake again!

Take photos of your student house when you move in and again when you move out. It'll help with any disputes over deposits.

Put up plenty of pictures of your friends and family back home - it'll help you beat the homesick blues.

Get **STUDENT** life sorted with wilko
